

Suggested letter or you can change the language as per your understanding

Dear Sir

Greetings

This is to request you to consider the request of professionally qualified social workers to enact a law to establish a **National Council for Social Work Education in India**.

I understand that the establishment of council will help to enhance quality in social work education, including its linkages with practice, knowledge, and ethical conduct; and to create national registers of accredited social work education institutions and programmes. This is also aptly in tune with the National Educational Policy of 2020.

You are requested to consider the long pending demand of Indian professional social workers community.

With hopes and wishes,

Yours sincerely
